EXCAVATION PERMIT APPLICATION

An **Excavation Permit** is required for all excavation work performed in the City right-of-way. Applications are available at City Hall. Applications should take place at least 48 hours prior to beginning excavation work. Work must not begin until a permit has been issued. The cost is **\$50.00** and the permit is valid for 30 days from the date of issuance. Please complete the following information:

Excavation Location: _____

All ROW users must submit a performance and maintenance bond to ensure the restoration of the ROW infrastructure. The bond amount is determined by the overall project cost, and released upon completion of the excavation work to the satisfaction of the City. It is the user's responsibility to contact the Missouri One Call System to determine the location of underground facilities (1-800-DIG-RITE).
